Notes

Cindrigo is a renewable energy developer and producer that is building a high capacity, clean baseload power generation portfolio across Europe. This includes a 110 MW biomass combined heat and power plant in Finland and three integrated power-heat-lithium geothermal energy

projects in Germany. Alongside this, the Company maintains an active development strategy with several additional renewable energy projects and licenses under evaluation.

Cindrigo has a clear vision to create shareholder value by delivering clean baseload power solutions that address two global priorities: meeting rising energy demand while improving environmental outcomes.

About Reach announcements

This is a RNS Reach announcement. Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only / non-regulatory news releases into the public domain. Information required to be notified under the AIM Rules for Companies, Market Abuse Regulation or other regulation would be disseminated as an RNS regulatory announcement and not on Reach.
